In accordance with the National Environmental Policy Act and Section 309 of the Clean Air Act, we have been given the opportunity to review the attached Draft Environmental Impact Statement (EIS) for the Jefferson/Conner Industrial Revitalization Project, in Detroit, Michigan. Because of pending Federal involvement in this project, we have a responsibility to ensure that all of the environmental impacts of this project have been addressed and any potential adverse impacts are minimized.

Please give particular attention to the discussion of identification and disposal of solid and hazardous wastes. This section begins on page V-17. Please review the EIS and return your comments to me by November 28, 1986. Your comments will be included in our response to the City of Detroit and the Department of Housing and Urban Development. If you have questions, please contact Tom Nowicki, at 6-4244. Thank you.
